

5th NextGen AI Aware Event

5th NextGen AI Aware Event – November 8, 2018 - Frankfurt am Main, Germany
(Part of the European Digital Week November 4-8)
To be held at Börsenplatz 4 (former site of the Frankfurt Stock Exchange)

AI-based fund products, data, technology, investment opportunities - the 5th NextGen AI Aware Event delivers the most comprehensive line-up of managers offering investible AI products alongside market participants who contribute to the growth of the AI fund universe. Presentations involving practical AI implementation experiences offered by these AI innovators of the investment management industry give professional investors a closer look at the exciting advancements of the universe of AI-based investment products and services.

At the end of the day you will have experienced the landscape of what is really happening in AI and how it is being applied to the investment management industry. No noise just reality!

The one-day event is by invitation only and will be held November 8, 2019 at Börsenplatz 4 (former site of the Frankfurt Stock Exchange), 60313 Frankfurt am Main. Space is limited and reserved for professional investors.

Pre-registration is required (<http://nextgen-alpha.com/>). Attendance via live-stream is an option.
